Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	16
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

**Main Tasks Assigned:**

Fine-tune model hyperparameters (e.g., learning rate, batch size)  
Conduct initial testing on the validation dataset  
Record training results and identify potential issues

**Work Completed:**

Community Engagement: Initiated outreach to mental health professionals for feedback and potential collaboration on content accuracy and relevance.

---

**Challenges Encountered:**

Feedback Implementation: Encountered challenges in effectively implementing user feedback into the chatbot's responses and functionalities.

---

**Solutions Implemented:**

Feedback Loop Creation: Established a structured feedback loop where users can easily submit their suggestions or concerns, allowing for more systematic updates based on user input.

---

**Tasks for Next Week:**

Content Review Session: Organize a review session with mental health professionals to evaluate the accuracy and appropriateness of the chatbot's responses and make necessary adjustments.

---

**Instructor's Feedback:**
