Weekly Progress Report			
Topic:	Chatbot – Final Project	Week No.	13
Course Code:	CSST101, CSST102	Term:	1st Semester
Course Title:	Advance Representation and Reasoning Basic Machine Learning	Academic Year:	2024-2025

Main Tasks Assigned:

Fine-tune model hyperparameters (e.g., learning rate, batch size)
Conduct initial testing on the validation dataset
Record training results and identify potential issues

Work Completed:

Data Cleaning: Cleaning the text data by removing unnecessary spaces and special characters from the context and responses.

Challenges Encountered:

Dependency Conflicts: While installing necessary libraries, there were conflicts between package versions

Solutions Implemented:

Package Management: Resolved dependency issues by carefully managing package installations and ensuring compatible versions were used. This involved uninstalling conflicting packages and reinstalling the required versions.

Tasks for Next Week:

Continue Data Preparation:

- Finalize the cleaning process of the dataset to ensure all entries are standardized and free of errors.
